

Glass Curtain Windows
Balcony Bedroom

1 Turn the white handle on the right-hand-side to vertical

2 The door on the right cracks open

3 Push the door, using the clear plastic door-knob, gently outwards

4 Slide the other panels to the right, until in the position of the first panel, and again push GENTLY outwards on the left-hand side

5 to close reverse the process

***** If windy, or you are leaving a door or doors open use the wedge to secure the panels

Push the wedge, hooks down, into the track, until flat. in line with the glass door edge.
Slide the black knob towards the glass
